TO WHOM IT MAY CONCERN

During the course of a year it has been my privilege to get to know Mr. John Glenn through the many DRCP sites. I have come to respect and value the in depth advice he has freely and positively given out to me.

I have on several occasions referred to him to call upon his many years of experience in the Disaster Recovery/Business Continuity field. On each occasion, John Glenn responded with useful information.

Because I have found his advice reliable and useable, I have consequently passed on his name to other individuals interested in the same field. I would say he possess the qualities to be found in only the most effective of TEACHERS and thus this would put him in the category of "MENTORS".

I continue to keep in contact with him to keep abreast of developments.
